EYS Camp season

2026

Overview of 2026 season

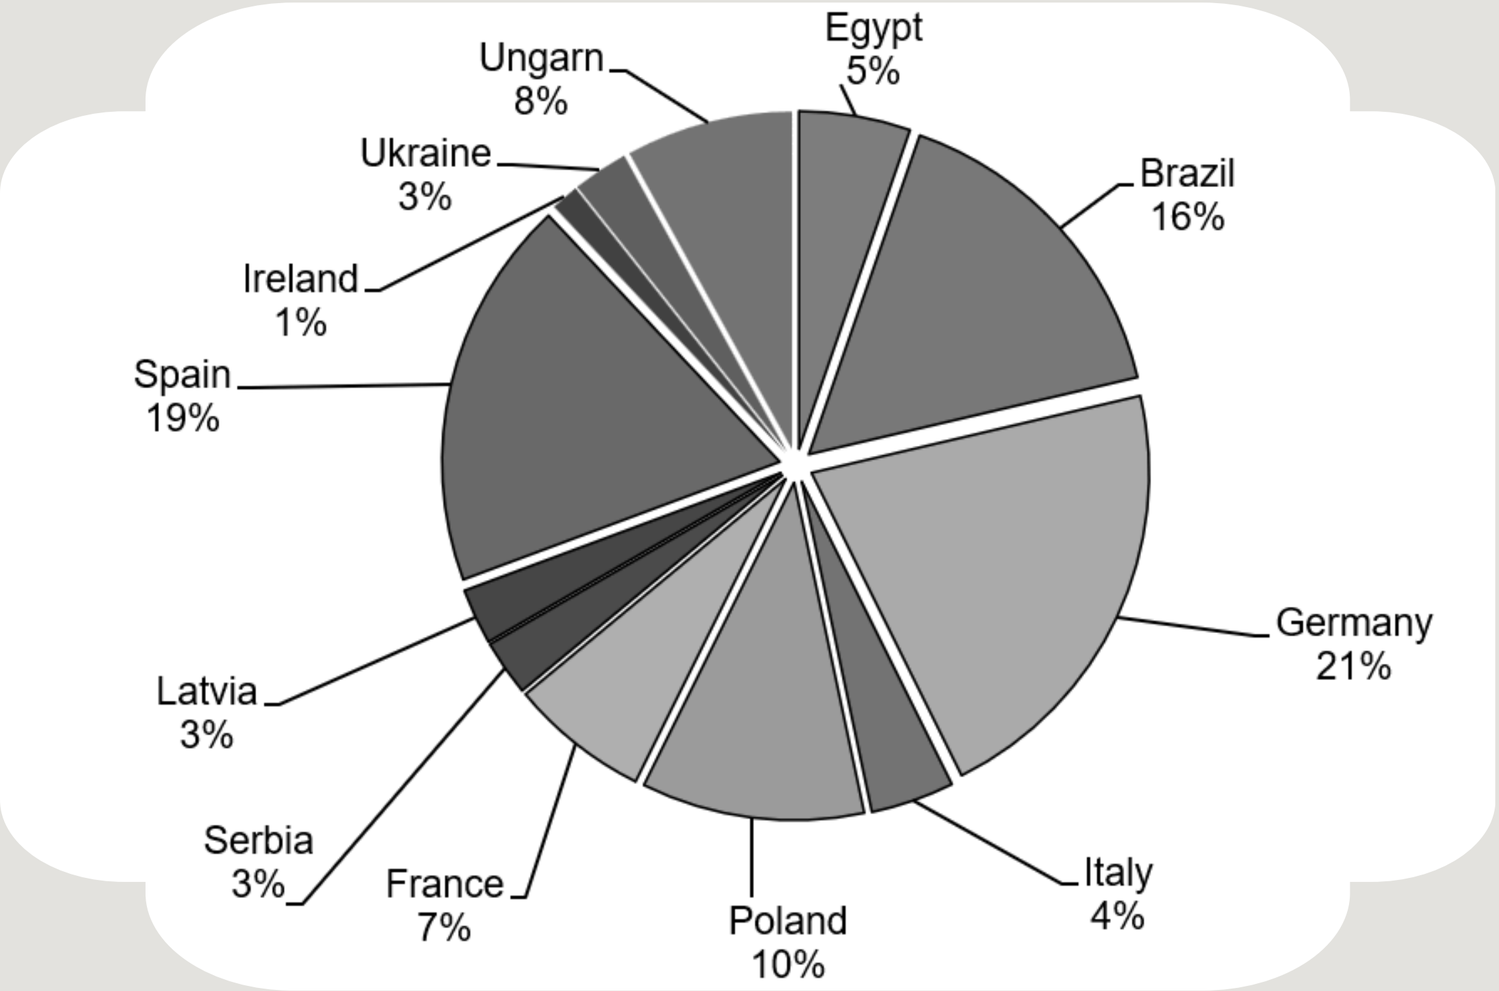

During the summer of 2026, we organised four workcamps in Berlin, bringing together young people from different countries to support local community projects.

Throughout the camps, participants shared experiences, discovered new perspectives, developed intercultural connections and created memories that made this summer special.

Behind every camp were teamwork, learning, new friendships and unforgettable moments.

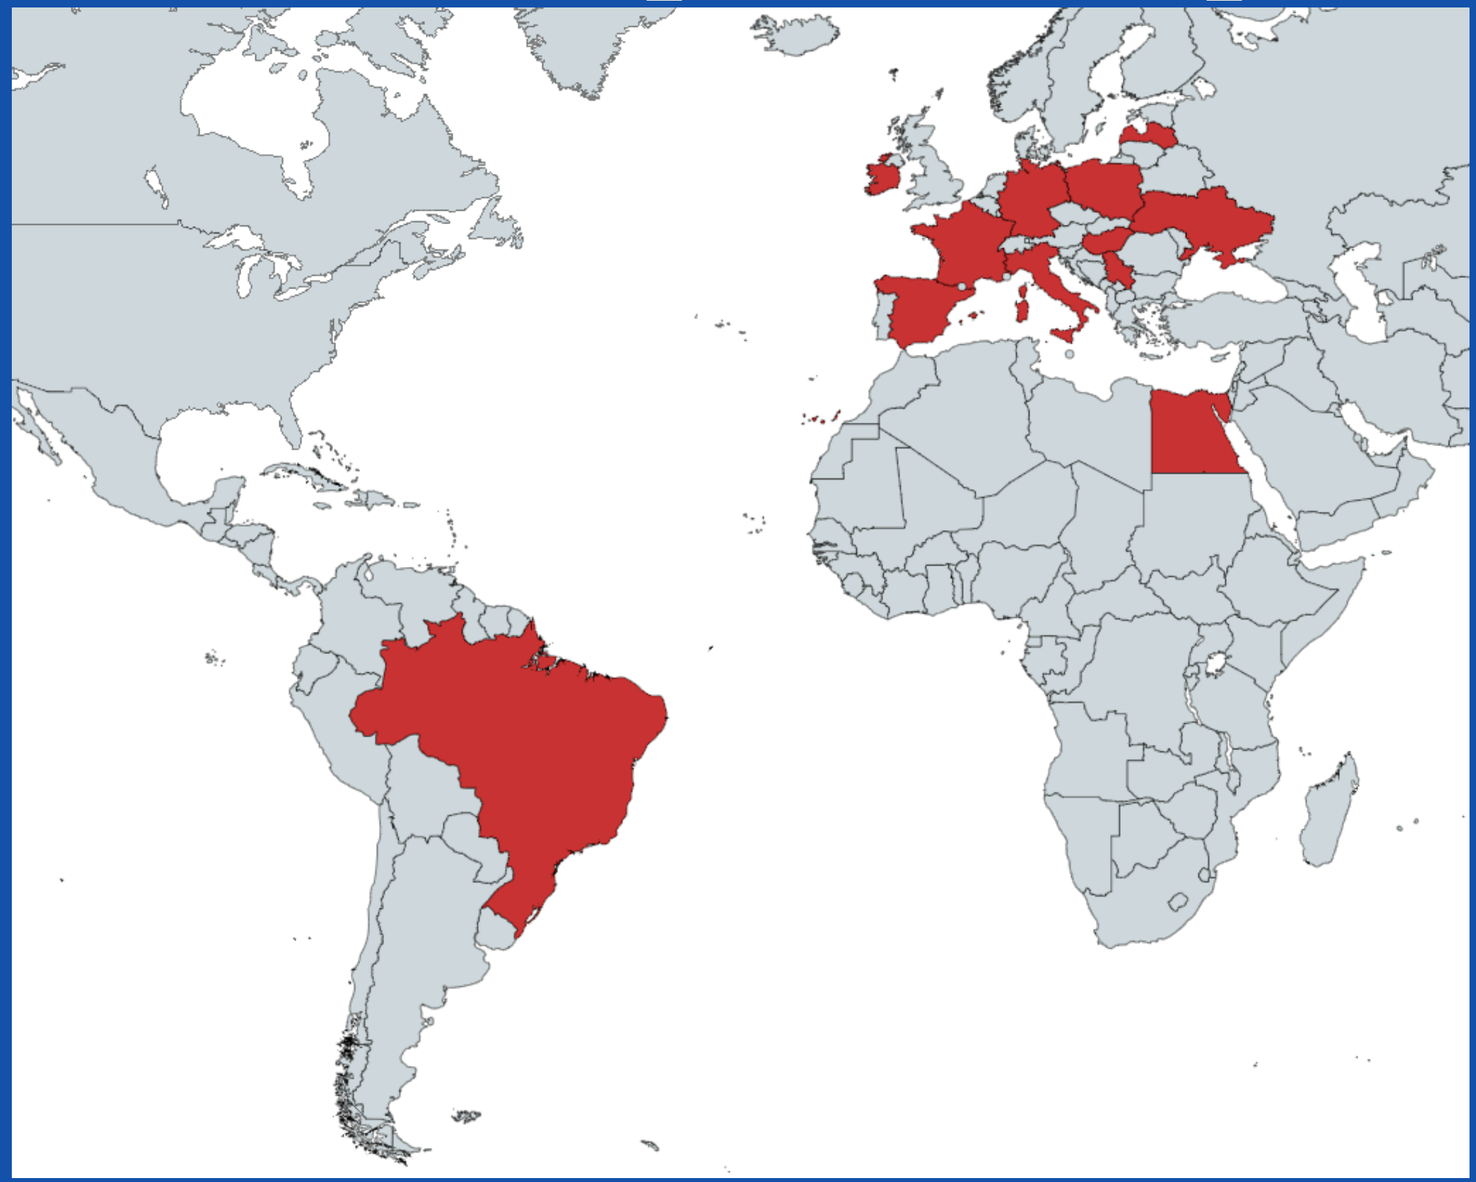

A year in numbers

- **4** Camps
- **4** Work places
- **54** Participants
- **15** Teamers
- **8** Camp partners
- **12** Countries represented by participants

Behind the scenes

A successful workcamp starts long before the participants arrive.
From planning and preparing materials to coordinating with partners and organising the details, there is a lot happening behind the scenes.
It takes teamwork, communication and plenty of preparation to bring each camp to life.

70 years of EYS

2026 was a special year as we celebrated 70 years of ÖJD!
To mark this milestone, we organised a special seminar bringing together current teamers and members of our support association.
It was an opportunity to reconnect, share experiences, celebrate our history and look towards the future of our work together.

Looking ahead

Every workcamp brings new experiences, challenges and ideas for the future.
As we look ahead to 2027, we want to keep building connections, welcoming new volunteers, strengthening our partnerships and creating meaningful experiences for everyone involved.

New people, new ideas and many more stories are waiting to happen!
