Mrs. ... prepared and led 2 international 2-week work camps for the Ecumenical Youth Services (EYS) in 2017/2018 under the motto "united we work" together with team colleagues. She was active in the EYS about 210 hours a year. In the camps she independently took over responsibility for the living together of the camp participants as well as for the execution of the camp work. She accompanied group processes, implemented methods of intercultural learning and took care of the finances. With creativity she designed the leisure programme and initiated the thematic work. Every year she took part in 2 trainings in which she developed her intercultural competence and team skills. Due to her commitment and tolerance and her high sense of responsibility, she was a popular team mate among all participants. She contributed self-confidently to the further development of the EYS.

Das Land Berlin und die unterzeichnende Organisation danken für das geleistete freiwillige bürgerschaftliche und ehrenamtliche Engagement und sprechen hiermit ihre Anerkennung aus.
